

# Freemasons (official & unofficial brethren)

Sunday, 9 June 2019

After its near death at around 7th July 2019.

Freemasonry corrupted. No more collusion Freemasonry. Hello corruption Freemasonry.

What follows are some reflections that are 'published' (written down) so that they are officially stated, and not subject collusion that would avoid these possibilities, rather subject to ducking and weaving, alteration, adjustment, bending etc

The Swap out. To date, narcotics have become known as the primary source of psychosis and schizophrenia like symptoms. This impact result of consumption should be reduced to zero over a set and limited period of time, and swapped for alcohol. There is currently research confirming what I stated and established at the end of 2014, namely, that cigarettes are one of the leading psychoactive drugs. This swap should begin immediately, and should end relatively soon. Science will have to keep up with the latest facts and truth]

A brand new field of mystery and intrigue to be discovered and discerned by a savvy Freemason is the investigation into the social and economic structures, and elements of, other-species. This investigation should produce a branch of social and economic understanding like macro or micro economics of other-species. Fight by successfully arguing to defeat any suggestions that might limit access to victims relying on collusion. Avoid losing telepathy – the way of the Freemasons.

Reversal of age criteria. Instead of -1 year old per year as the criteria (2018 was 6 year olds), it would be better to +1 year old per year, up until the criteria for abduction of an unwitting into becoming schizophrenic reaches 28 years old. Therefore last candidates meeting this criteria will be in 2040. So, 2019 goes back to 7 years old. 2020 goes to 8 years old. 2021 goes to 9 years old. 2022 to 10. 2023 to 11. 2024 to 12. 2025 to 13. 2026 to 14. 2027 to 15. 2028 to 16. 2029 to 17. 2030 to 18. 2031 to 19. 2032 to 20. 2033 to 21. 2034 to 22. 2035 to 23. 2036 to 24. 2037 to 25. 2038 to 26. 2039 to 27. 2040 to 28 y.o. Then this criteria age could remain stagnant at this rate, level and age criteria, yielding the unsubstitutable benefit of always dealing with a fully formed brain, honing skills, and optimising returns.

To avoid a disaster, like losing telepathy and Freemasonry, a Freemason should use their 'tools' (hot flushes, palpitations, cyphers, twitching, visions, automation & music sampling etc [the usual paradigm]) against another Freemason for a minimum of 6 months, or until they cry properly 4 times, to ensure the tools are working, as are the secret communication channels, otherwise 'hooking' (acquiring) a non-mason viable target will be prevented.

The corruption of Freemasonry could be a fight against pedophilia, pedophiles, paedophilia, paedophiles and other irrational pursuits consistently resulting from male governance. This could incorporate a digital goal (project), namely, the removal of all pedophile materials and associated stuffs off the WWW and the Internet. For the seasoned Freemason campaigner, this is a quest.

Another corruption of Freemasonry would result in the abolition of garrulous superfluous waffle. All websites and social media, and WWW written published communications must be of a standard. Especially, no more "veiled allegory". Only metaphor (should have a suffix of -m, or +m, or just "m"), and normal conventional English grammatical techniques should be used. All euphemisms must be followed by a suffix of u (eg: -u, :u, u etc). Ideally, as suggested, so should metaphors, if you want more power and support.

The ultimate challenge is to install and maintain a standard of intelligent plain straight forward understandable yet esoteric communication. For the subversives, and the dissidents, remembering that in law, the one (and only) defence against defamation is the truth. This complete comprehensive global achievement of all good men, is recompense to the challenge to clean up all pre-existing FM websites, and shout down all pre-existing social media. Everything in place could be replaced with new FM quality to live up to, WWW material communications and publishing. Individuals should be addressed by a single USERNAME

For the courageous forerunner, all websites and other WWW material where applicable must be copyright in the individual person's name (or username), being that of the leader of the unit, lodge, club, chapter, temple, district or organisation. Furthermore, any and all published communications, edits, adjustments, changes, updates and alterations must be followed by initials indicating the edit is a change. Oh yeh, and clean up the entire WWW and YouTube, of all dissent, and litigate publications claiming "satanic demon worship" etc. Active remediation of reputation, then ongoing maintenance of reputation. Remember the "truth" requirement? These concepts outline the potential corruption of Freemasonry by 'Freemasons'. To the extent that they are unachievable, bullshit, corruption will see these through. Just use dash. The Freemasonry before financial year 2019-2020 was diluted, weak, and proved insufficient. But corrupting Freemasonry (collusion) and replacing it with Freemasonry (corruption) will see it sustain into the centuries to come. By my trove, it's fucking truth.

.....  
FM?: "That can't be done"

S: "Corruption can achieve it. Else you will for some time be assunder"

G: "So where is our 'clue'?"

S: here 'tis: <https://www.dcode.fr/tools-list>The About page is the core description of your website. Here is where you let clients know what your website is about. You can edit all of this text and replace it with what you want to write. For example you can let them know how long you have been in business, what makes your company special, what are its core values and more.
